SCRUM 4 EDU

Teacher's Starter Kit

Everything you need to run Scrum in your classroom tomorrow.

What's inside

1 **Kanban board** — A board with To do, Doing and Done. Print one per team. — Page 2

2 **Role cards** — Product Owner, Scrum Master and Developer cards to cut out. — Page 3

3 **Task notes** — A sheet of sticky notes for writing tasks. Real sticky notes work too. — Page 4

How to use it in 5 steps

1. Read the 10-minute script to your class (you can find it on the Scrum 4 edu website).
2. Print one Kanban board and one set of role cards for each team.
3. Teams cut out the cards and choose a Product Owner, a Scrum Master and Developers.
4. Write each task on a note, put your name on it, and stick it in the To do column.
5. Every day, hold a 5-minute check-in and move the notes from To do to Doing to Done.

Tip: print on A4, in colour if you can. Black and white works too: just write the role name on each card.

Kanban Board

Team: _____ Sprint # _____

Sprint goal: _____

To do	Doing	Done
Tasks nobody has started yet	*Tasks someone is working on now*	*Tasks that are finished*

Rule of the board: every note has a name on it. Move your own notes, and tell the team when you do.

Role cards

Cut along the edges. Each team needs 1 Product Owner, 1 Scrum Master, and Developers for everyone else. Swap roles in the next sprint!

Product Owner

1 per team

YOUR MISSION

Keep the big picture. Decide what matters most.

YOU

- Know what the final result looks like
- Decide which tasks come first
- Answer "what should we build?"

"What matters most right now?"

Name _____

Scrum Master

1 per team

YOUR MISSION

Be the team's coach. Keep the routine going.

YOU

- Start the 5-minute daily check-in
- Help remove what blocks the team
- Make sure everyone has a voice

"Is anything blocking you?"

Name _____

Developer

the rest of the team

YOUR MISSION

Build the project together, task by task.

YOU

- Pick tasks and put your name on them
- Move your notes when things change
- Ask for help early, not at the end

"I will take this one."

Name _____

Developer

the rest of the team

YOUR MISSION

Build the project together, task by task.

YOU

- Pick tasks and put your name on them
- Move your notes when things change
- Ask for help early, not at the end

"I will take this one."

Name _____

Developer

the rest of the team

YOUR MISSION

Build the project together, task by task.

YOU

- Pick tasks and put your name on them
- Move your notes when things change
- Ask for help early, not at the end

"I will take this one."

Name _____

Developer

the rest of the team

YOUR MISSION

Build the project together, task by task.

YOU

- Pick tasks and put your name on them
- Move your notes when things change
- Ask for help early, not at the end

"I will take this one."

Name _____

Task notes

Write one task per note and put your name on it. Cut them out and stick them in the To do column of your board.
